Delaware Public Service Commission,

In regard to application 18-0991, DAVIS LANE, LLC / 6.992KW FACILITY, if you hover over cell C30 on tab "SCH. 3 PART B" of the uploaded EIA-860 form, you will find that the un-rounded system size is listed- 6.992 MWdc. Note that the EIA form automatically rounds the number and it cannot be edited.

Please let me know if you have any questions about this.

Thanks,  
Kate Brandus, Sr. Associate
